

## HOME CARE PACKAGES (HCP)

Home and Community Packages provide more complex support for older people who chose to live independently in their own home.

Footprints Home Care Packages are tailored to meet your individual needs, maximising your independence and choice. We provide holistic and personalised support and assistance to help you to remain living in your own home and avoid premature entry into residential care. We offer a comprehensive variety of services to help you with your day-to-day activities.

To receive a Home Care Package you need to be assessed by an Aged Care Assessment Team (ACAT) who will determine the package level to suit your care needs. Footprints will be happy to assist you with this process.

Call us now to discover the Footprints difference!
